

## Operations Made for Arrival of X-Ray Unit in Hamlin for Three Day Stand

## Mill Now Back Full Operation

Hamlin's Mid-West Cooperative Mill make a comeback this week, according to reports, from \$150,000 fire in February. The fire, locals recall, destroyed the plant's meal, cake and rooms, happened February when the cotton season was on. Plant stored about 6,000 of seed in its bins and shipped about 3,000 tons to Wolfe City. Latest in cotton refinery equipment has replaced the ruined machinery and is ready for operation.

The mill began running Monday, June 12, but full operation not expected until Monday of week. The mill, valued at more than \$100,000, is owned by about 22 Texas cotton gins. It employs about 45 persons and was purchased in 1942 by the Simmons Cotton Oil Co., which operated the Sweetwater oil Co. Members of the executive board include Howard Smith of Hamlin and others who will meet here at 10 a. m. at which time a dividend expected to be announced.

The mill was processing about 100 tons per day before the fire. It manufactures oil, cottonseed and cubes for livestock raising.

## Ten Hitters List Some Changes

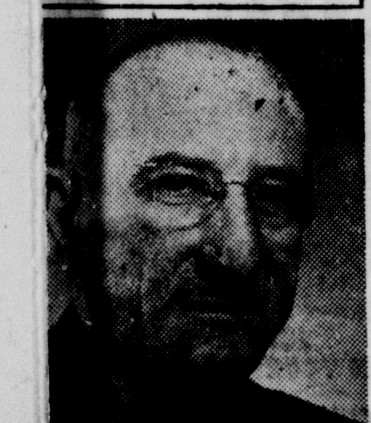

The ten leading hitters in the softball league were led for second week by Hooper of Conoco, who had other startling changes made in the standings. They are listed below:

Hooper, Conoco.....	15	8	.533
Butler, Lions.....	22	11	.500
Edwards, McCaulley.....	16	7	.437
Riddle, VFW.....	13	5	.384
Arlicker, Sylvesters.....	19	7	.368
Green, Lions.....	15	5	.333
Neinda.....	12	4	.333
McCauley.....	12	4	.333
Conoco.....	13	4	.307
Stapler, Lions.....	20	7	.305

STAL INSPECTOR HERE. A special inspection of the Hamlin office last week. The inspector warned Postmaster Perkins that he was in for a deal of grief with the initiation of city delivery service in July.

March 21 and September 21 and night are of equal length in every part of the U. S.

## TEXAS BOND LEADER

D. Florence, who is Chairman of the Texas Advertising Bond Campaign, is President of the Republic National Bank and a business and civic leader of the Southwest. He heads a group of Texas newspaper publishers and advertising agencies for a new advertising campaign in behalf of public utility savings bonds during the drive, concluding July 4th. The U. S. Savings Bonds is vital to the stability of our country. Mr. Florence points out that they are not only the citizens doing a real service to their community and country, but are making a wise investment for themselves.

Committees from Rotary and Lions Clubs of Hamlin are laying plans for reception of the mobile X-ray unit which will be provided for Hamlin on August 12, 14 and 15.

The two service clubs have agreed to work jointly in sponsoring the drive to examine the chests of adults in the Hamlin region and a concerted effort will be made to gain one hundred per cent coverage.

Showroom of the Hamlin Motor Company will be site of location for the unit which will provide easy accessibility from the street. Particular stress is placed on the fact that no preparation is necessary for the examination and no clothing will have to be removed to complete the X-ray.

Results of the examination will be treated as confidential and no embarrassment will result from the voluntary action. It is understood that the procedure calls for submission of the name of each applicant's personal physician and the physician is advised if traces of tuberculosis are found.

Latest development in the fight against tuberculosis in the state is the provision whereby treatment of persons infected with the disease will be provided by the state without cost or as a personal expense, according to the choice of the patient.

Emphasis was placed on the fact that children under 15 years will not be examined. Provision has already been made for examination of children through the school systems.

## Firemen Attend Wichita Falls Meet

Hamlin was represented at the State Firemen's and Fire Marshals' Convention which was held June 13, 14 and 15 in Wichita Falls.

Attending were Mr. and Mrs. H. E. Lawson, Mr. and Mrs. John Edwards, Mr. and Mrs. Sol Branscum, Mr. and Mrs. Bill Thompson, Mr. and Mrs. Tom Vaughan and Jack White and Ray Huling.

They report that Brownwood made an outstanding record in the racing meet which was held in connection with the convention. The team from that city laid 100 feet of hose and had water coming from the nozzle in 18.3 seconds. Elgin was second in this field with a time of 20.1 and San Marcos third with 20.2. Thirty-five entrant teams took part in this feature.

Reports are that Thurston Harvick, former Hamlinite now chief of the Wichita Falls department, did a splendid job as acting as host to the meeting.

John Edwards earned a new nickname of "Sonny" during the meeting in Wichita Falls.

Dallas was selected as site of the next convention in 1951 and there is a possibility that Hamlin will enter a team in that meet.

## Lueders Scene Of Young People's Meet

Several young folks from the local Church of the Nazarene attended the Young People's Institute held at Lueders Monday thru Friday of last week. Over 300 were enrolled.

Youth Choir, under direction of Miss Oden Murphy, sang numbers Tuesday night.

Those attending all the way through the institute from Hamlin were: Rev. and Mrs. Howard Smith and daughter, Retha Faye; Marvin Johnson; Jeanette Higdon; Bobby Norton and Elizabeth Norton.

## Bond Drive Reaches 40 Per Cent of Quota

According to a report received by The Herald this week Jones County had attained 40.36 per cent of its quota of \$77,500 on the Independence Savings Bond Drive over the state.

Report was received from the Treasury Department at Dallas and weekly increases will be reported as received by The Herald. Total for county was \$31,277.00.

## Homecoming For Neinda on July 2

All old timers and exstudents of the Neinda School are invited to attend a homecoming at the Hamlin City Park, July 2, according to reports made to The Herald.

Time for the event will be 10:00 a. m. and all are requested to bring your lunch.

Organization will be discussed for an annual affair and some kind of entertainment is expected to be given, the report concludes.

## VFW Takes Post As Softball Leader

First of the "crucial" games that develop in city softball league competition developed Tuesday night when the Hamlin Veterans of Foreign Wars and Hamlin Lions stepped forth to do battle for undisputed lead.

When the dust of battle had cleared, VFW stood firmly entrenched in first place by virtue of their 6-1 defeat of the youngsters comprising the Lions Club aggregation.

Experience in play under pressure appeared to be the determining factor in the victory for the VFW and the convincing manner in which they administered the defeat left little doubt of their superiority.

Dean Witt sparked with his defensive play at third base for the victors as did Bo Newland, team manager.

In the curtain raiser, Plainview community girls trounced Hitson by a score of 7 to 5.

## City Posts Notice Of Budget Hearing

In a notice published elsewhere in this week's Herald The City of Hamlin gives notice, as required by law, of a public hearing with reference to its budget through April 30, 1951.

The budget started May 1, 1950 and ends April 30, 1951.

The hearing will be held at the City Hall between the hours of 7:30 and 8:30 p. m. Thursday, June 29 and those interested are invited to appear.

## Boy Scouts Work Told to Rotarians

Hamlin's Rotary Club met Wednesday in the Johnson Drive-In for their regular noon luncheon. Visitors to the club were: Wendell Foreman, A. G. Youngblood, Lynn Dugan all of Abilene and Bernard Bryant of Stamford.

The club voted to sponsor with the Lions the tuberculosis survey.

Pat Marlow had the program and introduced Marvin Barrett, field Scout executive, who gave the club a talk on Boy Scout work.

Barrett compared the Boy Scout organization with youth movements in foreign countries under dictatorial rule and stated the democratic advantages of the work with boys through Scouting.

## Hitson Slates Softball Game With Sunlight

A special softball event has been scheduled for Friday night, June 30, when the Hitson ball club, supplemented by individual players from other clubs, will engage the Sunlight Bakery nine from Abilene.

Sunlight has a strong club in Abilene circles and are expected to give stiff opposition to the Hitson nine.

Game time is slated for 8:00 p. m. There is a possibility that another game will be scheduled to provide a double-header attraction.

## Man Loses Thumb In Oil Rig Accident

M. L. Hager, roughneck employed by Moutray & Moore Drilling company, suffered loss of the thumb from his right hand Monday when the hand became caught in the catline of the oil well drilling rig.

Hager is a resident of Stamford.

# Elva Greenway Critically Injured In Triple Highway Crash South of Hamlin

## City Mail Delivery Definitely Assured For July Start With Carriers Selected

Hamlin is to have city mail delivery in fact after July first according to a statement released by Postmaster Perry Sparks to The Herald this week.

In connection with the announcement, Sparks again stressed the fact that no deliveries will be made to residences where the mail does not bear the correct address of the households.

It is particularly desirable that all residents who desire delivery to their door notify their correspondents of the correct address in order to receive this service.

At the same time Sparks urged that householders refrain from installing mail boxes until they are notified as to what type of receivers are most acceptable.

Program of mail delivery will permit two deliveries daily in

the business district of Hamlin and one delivery daily will be made to the residences of the city.

With the advent of city delivery the three cent postal rate will automatically apply on local mail. Present plans call for the installation of storage boxes at two points in the city from which the carriers will work as a means of lightening their load.

No stamps will be sold by carriers on their routes. Smaller parcels post packages will be handled by carriers and a contract has been signed for larger packages to be delivered from a car.

Carriers engaged for the new service in Hamlin are W. L. Hunter, Jr. and Roy Mauldin.

## Jess Young Well In Ellenburger Depth

Considerable excitement was created in Hamlin oil circles Sunday when a possible pay section was encountered by Wheelock Drilling Co. on their Jess Young Number 1, which borders on the city limits of Hamlin.

A Strawn sand looked promising when it was drilled into and a drill-stem test was made from that section.

It is reported that the well tested unsatisfactorily from that depth and the hole is being drilled ahead to the Ellenburger. The depth for which it had been originally contracted.

The drilling of the well had encountered unexpected obstacles after reaching approximately 4100 feet, in that hard rock developed until the Strawn level was reached. Speed characteristic of other wells in the Hamlin area is now being maintained.

## Culbertson Well Now Going to Ellenburger

Tests of the lower Strawn section on the Culbertson well revealed a possible pay at that depth Monday.

Operators are said to have decided to drill ahead to the Ellenburger to explore possibilities of production from that horizon.

Should the well fail to be a producer from the Ellenburger, it is believed that they will plug back to the lower Strawn and produce from that section.

## All-Star Squad Is Picked for Tonight

Selection of the squad to represent Hamlin in the double-header softball games to be played with Stamford Friday night has been completed and announced as follows:

Catchers: Al Hill, Hitson; W. T. Stapler, Lions; John Hamilton, Conoco.

Infielders: David Butler, Lions; Bo Newland, VFW; M. Wisher, Sylvesters; Perryman, Sylvesters; Clyde Brown, Conoco; Chili Gardner, VFW; Joe Dean, Lions; J. C. Riddle, Neinda.

Outfielders: Pete White, Sylvesters; Doyle McKennon, Neinda; Kenneth Riddle, VFW; Charles Carter, VFW; Roy Thompson, Hitson; Dub Carricker, Sylvesters.

Pitchers: Ed Hill, Hitson; J. E. Hooper, Conoco; H. J. Lippe, Conoco; Pokey Woods, VFW; Sugar Green, Lions and Wenston Green, McCaulley.

Stamford is to come here with a formidable crew of softball players led by Mickler and Weeks, two of the state's outstanding pitchers.

Hamlin's group will be managed by Bo Newland, skipper of the league-leading VFW club.

## John C. Bryant In Baylor Hospital, Dallas

John C. Bryant, manager of Bryant-Link Company, is entered in Baylor Hospital, Dallas, for treatment of the hip ailment that has troubled him for so many months.

Diagnosis has revealed that the muscular convulsion centered in Bryant's hip is traceable to a disc in Bryant's spine which physicians are attempting to dissolve.

The treatment is causing a great deal of pain to the patient but there is a possibility that the disc can be removed without surgery.

The only liberty that is valuable, is a liberty connected with order and virtue, but which cannot exist at all without them.—Burke.

## Stadium Contract Is Delayed by Material

All foundation steel to be used in the erection of the new addition to the stands for Hamlin's football stadium, has arrived on the site and preliminary work is expected to start immediately.

It was reported to Herald representatives that construction on the stands will be delayed somewhat by the search for first grade lumber for the seating. Specifications call for a five-foot span between girders for the stands and lumber across thios span must be free from knots.

This lumber is superior to that used in most structures and no source of supply has yet been uncovered for the quantity needed.

Central Texas Iron Company of Abilene and Waco are the general contractors for the new stadium.

## Culbertson Tells Lions of Acreage

The Lions Club of Hamlin was without a program due to a last minute conflict in dates and the program committee called on Lion Joe Culbertson to speak on soil conservation as an emergency offering.

Culbertson brought the club a digest of a group of figures which revealed that about four acres per person were required to supply the nations population with the agricultural and industrial necessities of life.

It was brought to the club's attention that European countries are forced to subsist on approximately two and one-half acres per person. In proportion to the rest of the United States, Texas is provided with six acres per person.

The need for terracing and the other means of soil conservation was stressed as a control of erosion, which has been established as the principal cause of reduction of acreage in the past.

As an afterpiece to the soil talk the entertainment committee offered a quiz based on the truth or consequences theme and each pair of members was assessed a dime for inability to answer the questions offered.

The club voted to participate with the Rotary club in fostering the tuberculosis test in Hamlin when the state-operated service is brought to Hamlin.

## County Road Strip Graveled by VFW

A strip of county road totalling approximately one and one-quarter miles has been gravelled by the V. F. W. as an approach to their club rooms southwest of Hamlin.

The road treatment provides easy all-weather access to the building for club members and it was considered feasible to improve the stretch at club expense to provide all-weather travel.

Directors of the club announced that other improvements are contemplated as the need arises.

## Standings Change After Softball Week

Although knocked from the undefeated ranks by Hitson in the past week of play, VFW continues to show the way to the rest of the league in figures released through games of Tuesday.

Position with won and lost record is shown as follows:

	W	L	Pct.
VFW.....	5	1	.833
Hitson.....	3	2	.600
Lions.....	4	3	.571
Conoco.....	2	2	.500
McCaulley.....	2	3	.400
Sylvesters.....	2	4	.333
Neinda.....	1	4	.200

Maryland has the only state flag bearing a coat of arms.

## Car Fails To Make Highway Curve

A three-way auto crash at 12:30 noon Tuesday critically injured Elva Greenway, proprietor of the Hamlin Flower Shop.

Miss Greenway was approaching Hamlin in the 1949 Kaiser owned by the family and at the approach to the curve immediately opposite the new drive in theatre being constructed, she swerved into the left rear wheel of a dump truck being driven by A. E. Mallingley. Force of the impact reversed the car driven by Miss Greenway and threw it into the front of a Ford following the truck. The Ford was driven by Mrs. Rudolph Morton of Rotan, who was accompanied by Mrs. Lester Minton.

State Highway Patrolman Jerry Bright, accompanied by Ray Craft from Stamford, reconstructed the accident with Police Chief J. H. Foster and revealed that the dump truck was partially off the pavement on the right hand side when the collision occurred. Force of the impact threw the dump truck into the ditch where it overturned after losing a tire from the left hand dual wheels.

Skid marks indicate that the Greenway car traveled sideward before crashing into the Morton car. Location of an aluminum painted boundary post at the curve in the road prohibited the Morton car from turning over and the post was driven deeply into the car body near the right rear door.

Miss Greenway was hurtled to the space between the front seat and the cowl of the car and ambulance attendants had great difficulty in extricating her from the car.

She was brought to the Hamlin Memorial Hospital for emergency treatment and then was taken to Hendrick Hospital in Abilene for more extensive X-ray examination.

It was revealed at Hendrick that Miss Greenway was suffering from a crushed spinal column which resulted in paralysis from the neck down and head wounds as well as lacerations of the face and arms were noted.

Despite the severity of the injuries to Miss Greenway, she has remained conscious since the accident. Despite the administration of drugs to ease pain, she is capable of maintaining conversation with members of the family at her bedside. She has been unable to describe the cause of the accident, however.

Reports from the hospital Wednesday night were that she was resting well for about six hour intervals and that slight fever had begun to rise. Information gained at noon Thursday indicated that there had been no fever throughout the morning prior to arrival of the physician for examination.

Mrs. Morton and Mrs. Minton received emergency treatment at Hamlin Memorial Hospital and were then released to Callan Hospital at Rotan. First examination revealed that Mrs. Morton suffered a fractured left heel and cuts on the lip and face while Mrs. Minton received a deep gash over the left eye and cuts on elbows and knees.

Mallingley was uninjured and was able to crawl from the cab of his truck when it came to rest on its side. No glass was broken in the cab of the dump truck.

All of Miss Greenway's family are at her bedside.

## BAILEY ON VACATION

Clarence Bailey, head of the men's department of Bryant-Link Company, is enjoying a vacation interval this week.

Bailey is undertaking some repair work on his residence while absent from the store.

**State Health Head Lists State Part In Venereal Fight**

Texas' private war on venereal diseases among indigents is proceeding in wholesale fashion, with over 95,000 patients having passed through the State Health Department rapid treatment centers since the first center was opened in 1943 according to a report received by The Herald.

This was the word from State Health Officer George W. Cox, who described the 95,000 as "unlucky enough to have VD, but lucky enough to have gotten attention."

"Untended syphilis can cause heart disease, mental illness, blindness and other severe physical disabilities," the health officer asserted. He asked pointedly, "See why they're lucky?"

Two state supported rapid treatment centers—Rocky Mount Hospital in Overton and the Mission Medical Center in San Antonio—are maintained by the State Health Department for handling cases of venereal diseases in people unable to pay for private care, Cox said.

Gonorrhea, is handled in the VD clinics of local health units, rather than sending the indigents to the RTC's, Cox said.

"State Health Department policy calls for local health unit VD clinics as diagnostic centers," he said. "However, a good many rapid treatment center patients are referred there by personal private physicians."

Rapid treatment center personnel conduct patient education via conferences pamphlets, and

motion pictures, which is, Cox said, "one of our most valuable educational processes."

"We learned long ago that educating patients while they are undergoing treatment has more retentive value than any other device we could use."

William Howard Taft was the first United States president to receive a salary of \$75,000 a year.

## Shape and Color of Highway Signs All Have Meaning To Careful Motorist Now

The shape and color of a highway sign should have a meaning for you, Mr. and Mrs. Motorist, even though there is no message or symbol on it. You have only a split second at high speeds to read a written message or grasp the meaning of a symbol on a traffic sign. If you fail, you may be courting disaster. Is it not logical then that meaning should be assigned to shape and colors of a sign as added assurance of your glance recognition? Wouldn't knowledge of both be added insurance for your safety?

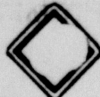

From the shape and color of the sign, it is possible for you to tell whether it is a REGULATORY sign intended to inform you of a law or regulation enacted to promote safety and convenience upon the streets and highways, whether it is a WARNING sign erected to tell you of a hazardous condition either on or beside the road, or whether it is a GUIDE or DIRECTIONAL sign to lead you to your destination.

This is the first of four arti-

cles designed to make Mr. and Mrs. Average Motorist more fa-

REGULATORY SIGNS

WARNING SIGNS

GUIDE SIGNS  
SKETCH G

and obeyed, make our highways a safer place to be. This is the story of the REGULATORY sign.

It is important enough to repeat that the REGULATORY sign is used to inform you of certain laws and regulations enacted to promote safety and convenience on streets and highways. A violation of these rules is a misdemeanor.

Generally, the REGULATORY sign is rectangular in shape, and it is mounted with the longer side up. The letters and border are black, and the background is white with only the following exceptions:

1—Night Speed signs which have white letters on a black background;

2—Parking Signs which have red or green letters on a white background; and

3—Stop Signs which are so important as to merit a full description.

The Stop sign is the outstanding exception to the usual shape and color combination of the REGULATORY sign group, and it needs no explanation to most motorists. It is the only standard sign which has an octagonal shape (eight sided), and it usually has black letters and border on a

### Corporal R. Wagner Sails From Japan

Word was received early this week by Mr. and Mrs. Rolfe Wagner that their son Cpl. Rolfe H. Wagner, 1956th AACs, stationed in Tokyo, Japan, has sailed for the United States and will arrive in San Francisco, California next Thursday, June 29.

He has been in Japan more than a year and was connected with the Weather Department of the radio station in Tokyo. He was Flying Weather Observer prior to coming home.

He took his basic training at Sheppard Air Force Base, Wichita Falls and technical training at Fort Warren, Cheyenne, Wyoming. Before entering the service he had a year of college work at Abilene Christian College, Abilene.

He is to receive his discharge upon arrival and will make his home in Hamlin where he will be associated with his father in the furniture business.

J. C. Owens of Hamlin was a medical patient at a Rotan hospital last week.

PLACE YOUR ORDER for Greeting cards, stationery and gift items now.—Card Corner. 1c

yellow background.

Unless they are illuminated by a fixed source of light, the REGULATORY signs are always reflectorized to improve night visibility by using reflector buttons to outline the message or symbol or by covering the entire background with a reflective material.

Remember the shape and colors of REGULATORY signs. Remember, too, that they inform you of laws or regulations that have been enacted for your safety and convenience. If you disregard them, you are not only endangering the life and property of others who use the highways, but also threatening the lives and property of yourself and loved ones who may be with you.

DR. FINLEY

Will Fit Glasses at the WHITE PLAZA HOTEL. 1:00 to 5:00 p. m. every Monday

Who ever heard of a "3"

turning into a "4"?

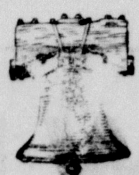

That's no hocus-pocus. It can happen! In fact, that's what does happen to every \$3 you invest in U. S. Savings Bonds. Every \$3 turns into \$4 at the end of 10 years.

There's no trick to it, but it does seem like magic—and it's almost magic the way you can buy those Bonds.

Here's all you have to do. Just come to this bank and arrange for regular purchase of U. S. Bonds.

Then at the end of ten years, look what's happened! All those \$3's have turned into \$4's. Just like magic and just as wonderful!

Independence Savings Bond Campaign and president of the Republic National Bank of Dallas (on right), thanks Van W. Stewart, president of the Texas Press Association and publisher of the Ochiltree County Herald, Perryton (in light suit), and Frederick I. Massengill, Jr., president-elect of the association and publisher of the Terrell Tribune, for pledge of vigorous support by the press of the state. Texas newspapers will bring the Savings Bond drive to the people through advertisements from business firms and individuals, and in news and editorial space. "The savings bond campaign transcends politics. It is a program in which all patriotic citizens may work together to gain personal financial independence and also aid in preserving our national freedom," Florence emphasizes. "U. S. Savings Bonds are helping to keep our military defenses strong. Money invested in them is money invested in the cause of peace. This is an appeal for an all-out effort to forestall a third World War—a total war—an atomic war. Besides this, the regular purchase of U. S. Savings Bonds by patriotic citizens means development of a program of thrift for every individual and the more savings bonds we buy the better it is for every community, as well as our country."

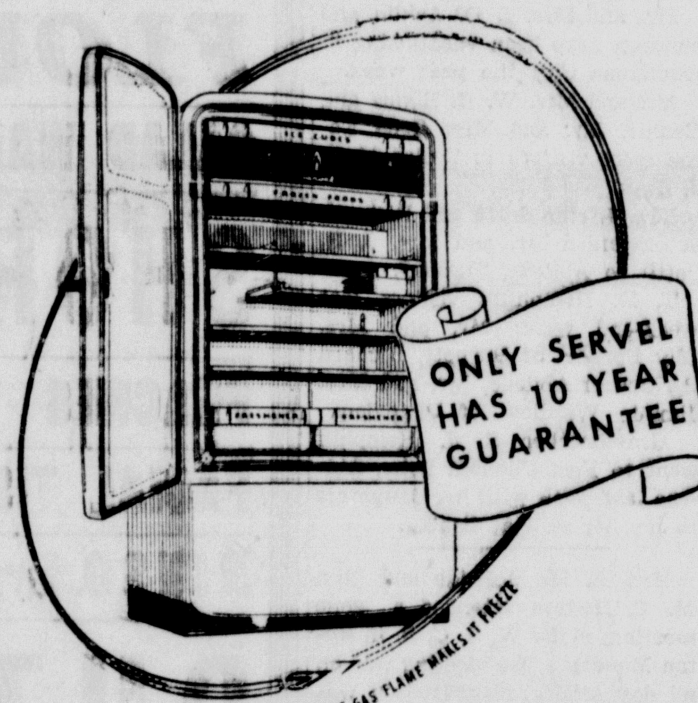

Mrs. J. W. Fancher of McCaulley was a medical patient at a Rotan hospital last week.

### Home Demonstration Agent Urges Check On Canners Prior To Opening of Season

It's the season when many homemakers will be using the pressure cooker and the water bath canner to preserve the fine fruits and vegetables that have been produced in the home orchard and garden. Before the canning equipment is put to use, Loreta Allen, Jones County Home Demonstration Agent, says it should all be cleaned and checked to make sure everything is working properly.

The pressure cooker should be washed in hot soapy water and then rinsed well. She says the lid of the cooker should not be immersed in water because the water will likely ruin the face of the pressure gauge. Check the pressure gauge for accuracy with a master gauge tester. The home demonstration club women in the different communities have learned how to do this. If you need to check your gauge contact the home demonstration club women in your community. Using an inaccurate gauge will mean either over or under processed products.

Water or food should never be left in the cooker. Aluminum is a porous metal and absorbs flavors and odors. She points out that a pressure cooker should never be used until the safety valve has been checked and cleaned. Serious accidents can result from stuck safety valves. All the parts of the valve should be kept shining and clean. If the spring on the safety valve is weak, replace it with a new spring. They are inexpensive.

Products to be canned should be fresh and of good quality. The finished product will be no better than what you started with. The products should be canned as soon as they are gathered for delays reduce food values. She says the pack raw and steam method of pre-heating, are describe in detail in C-223 Can Vegetables in a Pressure Cooker. This bulletin can be obtained from your home demonstration agent's office. Remember all acid vegetables should be processed in a pressure cooker.

It is best to can about what the family will consume between the growing season. This will vary

with families and individuals but here is a suggestion, 22 quarts of green and yellow vegetables along with the same number of quarts of other vegetables plus an additional five quarts of pickles and relishes for each member of the family.

The canned products should be stored in a clean, cool dark and dry place. The food value of canned food tends to decline in storage and this is particularly true when the storage is not good.

Small quantities of vegetables may be canned in a pressure sauce pan and you can get the information on how to do this from the home demonstration agent's office.

### Abilene Summer School Gets Hamlin Student Enrolling

Ten students from Hamlin and seven from McCaulley are among the 1,200 attending the summer school at Hardin-Simmons University, Abilene according to a report received this week.

They are enrolled in the first six weeks of school which will be concluded July 8. Second term of six weeks will start July 11. Final week term will begin August 19.

Approximately half of the students are graduates and many are attending as a result of the Gilmer-Aikin Bill.

Those from Hamlin attending are: Ben Wesley Niedeecken, junior; Bryan Newberry, Glen Richardson, Morris Carlton, Walter C. Cyfert, Harold Fletcher, Bill Scott, Hortense Ball, Joe Martin Clements, graduates; Kenneth Doyle Plemons, sophomore; and James Feagan, freshman.

Those from McCaulley are: G. L. Smith, Kenna Clifton, Wilmer Dawrmen Newton, Richard Smith, Glover Weight, graduates; Catherine Pehkopen, freshman; and Willie Oglesby, senior.

Jefferson Davis was president of the Southern Confederacy.

Joyous confidence and eager anticipation both shine in the eyes of 8-year-old Virginia Lee Brown, Borger, Texas, polio patient in the out-patient clinic of the Texas Scottish Rite Hospital for Crippled Children in Dallas. L. R. German, brace maker (left) has assured Virginia that she will soon walk again. Her father, T. A. Brown, (right) lends a helping hand in fitting the specially made braces. Many children, polio victims and others, get the best possible medical care and attention at the Scottish Rite Hospital. The charity hospital, now serving humanity for 27 consecutive years, is supported by contributions from kind-hearted Texans all over the state.

### Texas Bureau of Business Research Reports Advance in Retail Sales for May

Preliminary tabulations placed Texas retail sales at \$445,387,000 in May, a seven per cent gain from April, The Herald learned from reports of the University of Texas Bureau of Business Research.

In comparison with May 1949, state retail sales climbed 11 per cent in May 1950.

Durable goods store sales stepped up 13 per cent from April and rose 19 per cent from May of last year, while sales of nondurable goods stores increased three per cent from April and five per cent from May 1949.

All types of durable goods stores registered sales increases in May from the previous month. Jewelry stores turned in the largest gain in the durable goods group—23 per cent; followed by sales increases in farm implement stores, 22 per cent; furniture stores, 16 per cent; motor vehicle stores and hardware stores, 13 per cent; lumber and building material, 11 per cent; and household and appliance stores, seven per cent.

Except for a nine per cent decline in household and appliance stores all durable goods stores tallied increases over their May 1949 sales. Motor vehicles sales were up 26 per cent in May 1950 as compared with May 1949. Sales of lumber and building material rose 23 per cent; farm implements, 16 per cent; furniture, nine per cent; hardware, five per cent;

### Seaman Robert Cary Serving in Far East

Robert A. Cary, seaman apprentice, United States Navy, of Hamlin is serving in the flag of the Commander of Naval Forces, Far East, with headquarters in Tokyo, Japan, according to reports received by The Herald Tuesday.

Cary, who recently arrived in Japan, is assigned duties in the Personnel Office.

He was graduated from Hamlin High School before entering the Navy in 1949.

He is also a graduate of the Navy's Yeoman School at San Diego, California.

The human heart rests about eight-tenths of a second between each contraction.

and jewelry, one per cent.

Filling stations, up 12 per cent, turned in the largest increase in sales in the nondurable goods group in May from April, followed by department stores, eight per cent; office, store and school supplies, seven per cent; eating and drinking places, four per cent; apparel and drug stores, two per cent; and florist shops, one per cent.

Monthly declines were recorded in sales of general merchandise and country general stores, one per cent, and in food stores, down fractions.

In comparison with May 1949, country general stores turned in the only decline in sales in the nondurable goods group—five per cent.

Compared with May of last year, increases were registered in office, store and school supplies, 21 per cent; florist shops, eight per cent; department stores, seven per cent; apparel and general merchandise stores, six per cent; filling stations, five per cent; eating and drinking places, four per cent; food stores, three per cent; and drug stores, one per cent.

### Wednesday Gift Tea Honors Colleen Miller

Colleen Miller, bride-elect of Jim McFarland of Dallas, daughter of Mr. and Mrs. T. V. Miller was honored with a gift tea Wednesday.

Tea was held in the home of Mrs. Harold Bonner, hostess. Co-hostesses were: Mrs. Dick Maberry, Mrs. Eddie Jay, Mrs. Elmer Terrell, Mrs. S. C. Byrd, Mrs. W. H. Hallmark and Mrs. Rebekah Hallmark.

Around 50 guests attended the tea.

Tea table was laid with a cut work linen cloth, and a blue and yellow color scheme was carried out in punch, cookies and mints.

Blue and yellow daisies tied with satin ribbon held a card with "Jim and Colleen, June 23, 1950" were given each guest as favors.

Others assisting in the house party were: Misses Janet Bonner, Larn Courtney, Norma Rawson, Roberta Wilkins, Quata Miller and Mrs. V. F. Townley.

Members of the white race have more hair on their heads than any other race.

### Livestock Shipments Show 75 Per Cent Rise

Livestock shipments in Texas rose 75 per cent in April from March, according to a report to The Herald from the University of Texas Bureau of Business Research.

March to April shipments of sheep and calves were up 87 and seven per cent, respectively. Hog shipments slid 10 per cent during the monthly period.

In comparison with April 1949 livestock shipments rose 15 per cent in April 1950. Compared with April 1949, hog shipments were up 38 per cent; calves, 35 per cent; and cattle, three per cent.

Members of the white race have an average of 50,000 hairs on their heads.

Men give counsel; but they give not the wisdom to profit by it. To ask wisdom of God, is the beginning of wisdom.—Mary Baker Eddy.

## How SMOOTH can a ride be?

THAT'S a question well worth answering before you settle on your next automobile.

For what fun is there—what thrill—in a car that is prisoner to the city streets, slowed down by roads a Buick is built to take in stride?

So we'd like to show you just how much smoothness your money can buy. How levelly you float over cobbles and car tracks—over rutty gravel and wavy black-top—in this stunning traveler.

The car will be any Buick you prefer—SPECIAL, SUPER or ROADMASTER. You can name the place—pick a spot or a stretch you know so that you can measure Buick's smoothness against your own experience—and we'll promise you a new sensation in riding comfort.

The time can be any time you want to arrange with your Buick dealer—who is ready to show with actual figures that "if you can afford a new car you can afford a Buick."

See him, will you, and treat yourself to some real comfort?

**Only Buick has Dynaflo\* and with it goes:**

- HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.)
- NEW-PATTERN STYLING, with MULTI-GUARD forefront, taper-through fenders, "double bubble" taillights
- WIDE-ANGLE VISIBILITY, close-up road view both forward and back
- TRAFFIC-HANDY SIZE, "ess over-all length for easier parking and garaging, short turning radius
- EXTRA-WIDE SEATS cradled between the axles
- SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube
- WIDE ARRAY OF MODELS with Body by Fisher.

\*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

WHATEVER YOUR PRICE RANGE

# "Better buy Buick"

FOUR-WAY FOREFRONT

This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

Tune in HENRY J. TAYLOR, ABC Network, every Monday evening.

## BAKED POTATO SOUP

Soup can simplify lunch preparation immensely, for a hearty soup requires only sandwiches of assert to make a complete meal. You'll find a wonderful taste-treat in this rich

- Baked Potato Soup**
- 3 baked potatoes
  - 2 tablespoons hot milk
  - 2 thin slices onion
  - 2 tablespoons margarine
  - 1 quart chicken stock
  - 1 egg yolk
  - 1/2 cup cream or rich milk
  - salt and pepper
1. Boil potatoes in salted water until tender. Drain. Split lengthwise, mash and whip with hot milk. Cook onion in fortified margarine. Add potato pulp and onion to well-seasoned chicken stock. Beat egg yolk and add a little of the hot soup, stirring until smooth. Then add cream and combine with hot potato and chicken mixture. The soup must not boil after egg yolk is added. Season well and garnish with parsley. It's simple and inexpensive, especially if made with bouillon cubes, but delicious. Serves four.
- For other tempting, nutritious food ideas, send today for your free copy of "Mealtime Marvels with Margarine," a helpful, 32-page recipe booklet in two colors. Write National Cotton Council, Box 76, Memphis, Tenn.

Hope is like the sky at night; there is no corner so dark but that a persevering eye will discover a star.—Octave Feuillet.

## Jessie Myers Weds Eual Frank Lawson In Sylvester Candlelight Service Held Monday

Announcement was made Monday of the marriage of Jessie Myers, daughter of Mr. and Mrs. R. M. Myers of Sylvester and Eual Frank Lawson Jr., of Albuquerque, New Mexico in a candlelight service in the Sylvester Baptist Church.

Double ring ceremony was read by the bridegroom's father, Rev. Eual Frank Lawson Sr., of Albuquerque, assisted by Rev. C. R. Blake of Sylvester.

Couple took their vows before a white satin draped archway entwined with fern, white gladioluses and stock. Candelabra holding yellow tapers flanked the altar.

Fan-shaped arrangements of white stock and gladioluses tied with yellow satin bows and blue daisies and greenery completed the decorations.

Traditional wedding music was played by Carolyn Lassiter of Abilene and was accompanied to soloist Gerald Swindler of Abilene.

The bride entered the church on the arm of her father and her gown was fashioned of bridal satin with a lace yoke edged by a wide berth. The full skirt fell into a cathedral length train. Her fingertip veil of imported illusion was caught to a coronet of seed pearls.

She carried a bouquet of yellow roses on a white Bible belonging to Lula Mae Hampton.

Matron of honor was, Mrs. Carl Myers, sister-in-law of the bride. Lula Mae Hampton of Albany was bridesmaid. Both wore dresses of ice blue faille taffeta with short peplums and stoles of yellow net. Both carried nosegays of yellow daisies.

Bridegroom was attended by his brother, Chief Lawson, as best man, and Ray Myers, brother of the bride.

Candlelighters were: Barbara Linda Alexander and Mary Helen Yates. Flower girl was CeCe Dillinger, escorted by Lonnie Alexander.

Ushers were: Ray Myers and J. F. Dozier.

Included in out-of-town guests were: Bill Lawson, Rev. and Mrs. Eual Frank Lawson Sr., all of Albuquerque; Mary Helen Yates, Mrs. C. H. Yates of Gardner, Colorado; Lula Mae Hampton, Mrs. H. M. Hampton of Albany; Lee Har-

## Linda Griffin Weds In Odessa Monday

Linda Griffin was married to Raymond Stephenson of Odessa in Carlsbad, New Mexico Monday.

She is the daughter of Mrs. Ruth Griffin, formerly living in Hamlin.

The couple will make their home in Odessa where he is employed as a telegraph operator for Gulf Oil Corporation.

## Alathean Sunday School Class Picnics

Alathean Sunday School Class of the Hamlin First Baptist held a picnic in the City Park Tuesday night.

Mrs. Joe Simpson gave the devotional and Mrs. L. B. Maberry, class president presided.

Refreshments of sandwiches, olives, sweet pickles, potato chips, deviled eggs, home-made cake and Hawaiian punch was served to those present.

Those present were: Mmes. Joy Walton, Violet Blackley, Leta Harkins, B. B. Reid, Sybil Watson, Melvin Strain, Letha Maberry, Clyde Alexander, Joe Simpson, teacher and a guest, Miss Simpson.

After the picnic the class presented Joy Walton with a beautiful silk gown and also a handkerchief shower, a farwell.

## Don Goulds Attend Birthday Celebration

Dr. and Mrs. Don Gould and girls visited in Walters, Oklahoma Sunday with her father, Dr. G. W. Baker who was celebrating his 76th birthday.

Baker has completed 45 years of medical practice in Texas and Oklahoma and has delivered over 4,000 babies. He is still doing active practice.

All of his children attend the event and included besides the Goulds the following: Mr. and Mrs. Ray Roberts of Birmingham, Alabama; Mr. and Mrs. Cecil Brown of Oklahoma City, Oklahoma; Mr. and Mrs. John Ownby, Kilgore; Mr. and Mrs. Roy McKinney, Walters, Oklahoma; Mr. and Mrs. P. G. Waggoner, Lawton, Oklahoma; Mr. and Mrs. Joe Bertram, Lawton, Oklahoma; Mr. and Mrs. Charles Rothwell of Abilene.

Mr. and Mrs. Jones Palmer of Levelland were week-end guests of her parents, Mr. and Mrs. J. E. Green.

Recent visitors in the home of Mr. and Mrs. Tom Routh were: H. C. Rothell, Mrs. Routh's father and her uncle, G. A. Rothell of Fort Worth.

Let your light so shine before men, that they may see your good works, and glorify your Father which is in Heaven.—Matthew 5:16.

**JEEPERS!** That's the name of these new knee length clam diggers made of sturdy denim. With the comfortable jeppers, this attractive beachcomber wears a cotton T-shirt designed in a matching color by Jantzen.

## Park Scene of YMA Regular Meeting

Y. M. A. of the Hamlin First Baptist Church met Tuesday at the City Park for their regular meeting.

Meeting was called to order by Eleanor Hutchingson, president. Prayer was led by Eddie Decker.

Members discussed a review of books, 1 thru 3 of John.

Those present were: Eleanor Hutchingson, Dorothy Altum, Joy Maynard, Janet Durham, Dorothy Turner and Eddie Decker.

Meeting next week will review the book of James.

## Flowers and Ornamental Plants Subect To Heavy Damage from Thrips, Agent Warns

Infestation of thrips on flowers and many ornamental plants is particularly heavy this year in many sections of the state, according to reports from Loreta Allen, Jones County Home Demonstration Agent.

These insects are so small and move so fast they are hard to see unless the infestation is so heavy that they may look like dust. Right now they are damaging summer flowers and the berries on many ornamental plants that make the plants beautiful next winter.

These insects often cause roses and other flowers to dry up before the bloom opens. They cause wilting and browning of the petals of many flowers. They do not eat holes in the leaves nor petals and since they are hard to see, their presence is often detected by the damage that shows up on the plants and blooms.

When the petals dry around the edges before the bloom is fully open or dry spots appear on the petals of some flowers or the rose buds look dry and fail to open fully, then it is pretty certain that thrips are at work in your flower garden. The damage is caused when the thrips suck the sap out of the plant or flower. Young nandina berries along with other ornamental berries are often attacked by thrips. The young berries may turn a light color but will darken and then fall.

To control the heavy infestations that are showing up this year, use either a dust or spray on the infected plants every week or 10 days. During rainy weather the applications of the insecticides should be more frequent. Use a dust or spray containing 10 per cent chlordane or 10 per cent toxaphene or 5 per cent DDT. Be sure to use a wettable powder if sprays are used instead of an

emulsion. A dust widely used by commercial rose growers for controlling the rose thrip is composed of three per cent DDT and three per cent chlordane. These insecticides can be purchased from most feed and seed stores.

## Mary Martha Class Has Thursday Picnic

Mary Martha Class of the First Baptist Church of Hamlin was entertained with a picnic supper at the Russell cabin Thursday evening.

Tood Brown and Ruby Flennikin were hostesses.

Those attending were: Ruby Smith and Joyce, Velta Gardner, Edna Irvin, Dorothy Stovall, Mamie Rountree, Hazel Kidd, Eileen Stringer, Harmonia Jenkins, the teacher, Bonnie Fincannon, Erma Wallace, Fay Irwin, Mary Newberry, Martha Rhoten, Thelma Maddox and Young Bill and the hostesses.

Edna Irvin directed entertainment for the group.

## FLIES TO CALIFORNIA

Mrs. M. P. May, mother of Tate May, Hamlin banker, is visiting her son, Truett May, at Salinas California.

Mrs. May was accompanied by Mrs. Tate May on her flight from Abilene to Dallas over Pioneer Air Lines and departed from there on the transcontinental American airlines flight direct into San Francisco without stop enroute.

In a letter to her son, she reported a very enjoyable trip and is considering use of air travel on her return trip to Hamlin.

The thing most important is what we do, not what we say. God's open secret is seen through grace, truth and love.—Mary Baker Eddy.

**KITCHEN MEMO** BY JEAN CLARKE

**YOU'RE** a happier hostess if food is ready before guests arrive. Prepare this flavorful variation of Pineapple Ham Mousse hours ahead for a company meal and serve as an entree. Soften 2 envelopes unflavored gelatin in 1/2 cup cold water. Heat 1 can (1 1/2 cups) condensed mushroom soup over low flame to boiling point. Add gelatin, stir until dissolved. Combine 1/4 cup catsup, 1/4 tsp. Worcestershire sauce, 1 tsp. prepared mustard, 1/2 tsp. scraped onion, 1/4 cup celery and 1/2 cup green pepper, both chopped fine, 1 1/2 lbs. (4 cups) ground boiled or baked ham. Add gelatin-soup mixture. Stir to blend well. Fold in 1/2 cup mayonnaise. Add salt, pepper to taste. Cut 1 1/2 slices pineapple into wedges. Arrange around sides of loaf pan (8"x4"x4"). Spoon meat mixture into pan. Chill in gas refrigerator until firm. Turn into serving dish, garnish with 1 1/2 slices pineapple and parsley. 8 to 10 servings.

For customer protection, more than 350 individual tests for safety, durability and performance are made on automatic gas water heaters by the American Gas Association's Testing Laboratories.

Dip scissors in hot water before cutting marshmallows to keep them from sticking.

It's easy to keep your gas refrigerator clean with soda and water—3 tbsps. to a quart of warm water for washing down walls, shelves and fittings.

When recipes require any mixing over top burners, put all ingredients and utensils on a tray, set it on the work surface of the gas range to save steps.

**Index of Business Activities for First**  
**Four Months Discussed by Director**

Level of Texas business for the first four months of 1950 has been unusually stable at an extremely high level, Dr. John Stockton, director of University of Texas Bureau of Business Research reported early this week.

The Bureau's index of business activity, after adjustment for seasonal variation, averaged 201 per cent of the 1935-1939 base period for the first four months of 1950. The April index was slightly below 202, slipping fractionally from the March level.

Five of the seven components of the index of business activity registered decreases from March. The largest decrease was in crude oil runs to stills, which reflected the effect of the refinery strike in Port Arthur. Urban building permits adjusted for the price changes declined four per cent; miscellaneous freight loadings, two per cent; and retail sales after adjustment for price change and electric power consumption were down fractionally.

Crude petroleum production in April was six per cent above the preceding month, and industrial power consumption was up one per cent.

The level of consumer spending in Texas continued in April at a level much higher than the average of 1949 and higher than the peak reached in 1948. Sales of

nondurable goods stores continued below the 1949 average and still farther below the average of 1948. Sales of durable goods stores, on the other hand, continued to exceed the level of 1949, although there was a three per cent decline between March and April. Sales of automobile dealers were further above the pre-war level than any other type of retail store, with lumber, building material and hardware stores a close second.

Industrial activity in Texas continued to operate during April at the high level of the first three months. Total employment in manufacturing industries were estimated at 331,300 in April as compared to 331,900 in March and an average of 331,100 in 1949.

Building construction in Texas continued to boom, and the Bureau's index of the value of permits issued stood at more than seven times the level of 1935-1939. Despite the high cost of building, it appears that people are going ahead with their plans to buy homes. There is a general feeling that since prices have failed to decline as expected, there is no good reason to continue waiting. Every indication points to 1950 as a record year for build in Texas.

All kind INK at The Herald.

## County Makes Hit With Wheat Grown

The 1950 Millers Buying Guide recently published by the Texas-Oklahoma Wheat Improvement Association showed an improvement in the varieties of wheat being produced in Texas and Oklahoma.

Most of Jones County showed a 71 to 80 per cent acceptable wheat growing.

Fisher County showed the same percentage.

Principal acceptable varieties this year for flour millers and other processors were: Comanche, Westar, Wichita, and Triumph. Early maturing varieties, Wichita and Triumph, have reached the peak of their popularity with farmers the Association stated.

Mid-season varieties, Comanche and Westar, have made the best yields the last two years.

The Association continued, 85 per cent of our Texas and Oklahoma wheat is used by large commercial bakeries and should be strong gluten varieties.

According to reports pure Comanche receives first demand, Westar gets second and Wichita third. Triumph rarely gets a premium because of the ample supply unless the seed is registered or certified.

## Philippine Badge Now Up for Award

According to an announcement made this week by Oscar B. Abbott, Chief of Texas Military District, he received information that ex-prisoners of World War II who served in the Philippine Defense Campaign and those who fought in the Philippine Campaign in 1944-1945, are entitled to the Philippine Republic Presidential Unit Citation Badge.

Each individual must submit a request for proper forms to the American Ex-Prisoners of War National Headquarters at Bellevue, Washington. After receiving the form, they must be filled out in quadruplicate and mailed to Headquarters National Defense Forces, Camp Murphy, Quezon City, P. I. The forms may be obtained by request in writing and no charge is attached for this service.

The portion of the order authorizing this foreign decoration for American Service personnel reads as follows:

"... The Philippine Republic Presidential Unit Citation Badge is awarded to all members of the Armed Forces of the Philippines including members of the Philippine Merchant Marine and all members of the Armed Forces of the United States in the war against the Japanese Empire during the period December 7, 1941 to May 5, 1942, and during the

## Lone Star Gas Gets 85 Million Loan

Lone Star Gas Company concluded a loan of \$85,000,000 which will be used to retire outstanding debt and finance a five-year program totaling \$81,406,856, according to president D. A. Huley.

The loan, in which 12 leading financial institutions participated, was closed Friday, June 9, in the board room of the Republic National Bank, Dallas in the presence of representatives of the lending agencies and Lone Star.

The \$81,406,856 expansion program originally revealed by Huley at a meeting of the stockholders in Dallas April 18 will be divided as follows: over the five-year period of 1950 to 1954 inclusive.

Transmission division, including exploration, development and gasoline recovery plants, \$45,596,380.

General division of distribution, which includes all of the company's distribution plants except the Dallas and Fort Worth divisions, \$16,269,700.

Dallas division of distribution, \$11,885,000.

Fort Worth division of distribution, \$7,655,776.

The expansion program calls for construction of gathering and transmission lines, compressor stations, exploration and the drilling of wells, extensions and additions to local gas distribution systems, and many other facilities, all of which will enable the company to render a more complete gas service to its 500,000 customers in Texas and Oklahoma and meet the requirements of the system's anticipated growth.

In conclusion, Huley stated that "Lone Star added more than 46,000 new customers and it is apparent that the year immediately

Philippine Campaign of Liberation in 1944 and 1945."

## Services Conducted For A. A. Hackley Following Attack

Funeral services for A. A. Hackley, 65, retired railroad engineer and Hamlin farmer were conducted at 2:30 p. m. Thursday in the Hamlin First Methodist Church.

He was stricken with a heart attack at 7:15 p. m. Tuesday at his home and because of the local hospital's overcrowded condition was sent to Rotan after he decided on same. He died while in route.

The local hospital, with a new addition under construction, was unable to offer any place with halls and beds jammed to capacity and supply of oxygen masks had been exhausted.

Hackley had been at one of his wheat farms earlier in the day to inspect new farm machinery and complained of feeling ill at that time.

Funeral services were conducted at 2:30 p. m. Thursday from the First Methodist Church with Dr. Will C. House officiating after which the body was taken to Abilene for interment in Elmwood Memorial Park.

Hackley was born at Slater, Missouri, in 1885 and moved to La Junta, Colorado, a division point for the Santa Fe railroad, in search of work. He was eventually employed as a railroad laborer and advanced to fireman and then engineer within a year of his first employment.

He was employed in Hamlin from 1913 until 1941, originally by the Orient Railroad, which later became the Santa Fe, and was compelled to retire from his position in 1941 when first indications of his heart condition became apparent.

Hackley's active nature would not permit him to remain idle and he interested himself in farming on an increasingly larger scale. He was active in both civic and church circles of Hamlin and had been a member of the First Methodist Church for 25 years.

The Brotherhood of Locomotive Trainmen and Engineers honored him with presentation of a 40-year service pin at a banquet held in San Angelo last April.

Hackley is survived by his widow, the former Nettie Jones of Hamlin, one brother, Frank L. Hackley of Amarillo; and three sisters, Miss Nora Hackley of Warrensburg, Mo., Mrs. Frances Parks of Los Angeles and Mrs. Byrda McAllister, of Missouri.

Mr. and Mrs. J. R. Long of Congo City, Oklahoma were weekend guests of Mr. and Mrs. R. L. Dean.

ahead will witness a comparable rate of growth."

## Vic Vet says

KEEP THIS IN MIND, PAL! A GUARANTEED LOAN IS NOT A GIFT... IT MUST BE repaid! DON'T WASTE IT!

Mrs. L. Sparks and children of Waller, Texas, were Sunday visitors in the home of Mr. and Mrs. J. H. Foster.

If you wish to train up a child in the way he should go, just skirmish ahead on that line yourself.—Josh Billings.

Delaware has only three counties.

## PEACE, IT'S WONDERFUL!

"Peace, it's wonderful," sighs this pretty miss, who thinks the Mexicans have a point in their siesta time. She is completely relaxed to enjoy the sun's tanning rays in her play outfit of cotton ticklin' by White Stag.

China's Great Wall was built in the third century. B. C.

## Increase Shown In Santa Fe Carloadings

Santa Fe System carloadings for week ending June 17, 1950, were 27,243 compared with 25,089 for same week in 1949. Cars received from connections totaled 10,708 compared with 9,611 for same week in 1949. Total cars moved were 37,951 compared with 34,700 for same week in 1949. Santa Fe handled a total of 35,566 cars in preceding week of this year.

Christopher Columbus is buried in the cathedral of Seville, Spain.

A man whose normal weight is pounds if all the water in his system were dried up.
